

Response-Ability: Responsive Youth for Climate Action European Green Roundtable

July 1st to 3rd, 2025
Ruschestraße 4,5, 10367
Berlin, Germany

Who we are?

We are a group of 30+ youths coming from Italy, Germany, Spain, Bulgaria and Lithuania. Together we are taking part in transnational and local initiatives that have as their goals to bring together education about Climate Change, awareness and competences and skills to act in our everyday life.

What we are doing?

We're educating ourselves and our peers to be environmentally aware: in our everyday life, in our communities, and in relation to the policies that impact us.

Our activities:

Our project has officially started in the end of November 2023. Since then we had youth exchange, training course, local events. Our youth created eco-guides and more!

Response-Ability: Responsive Youth for Climate Action European Green Roundtable
